Education

Instituto Politécnico Nacional ESFM-IPN CDMX, MX
Master's degree in Physical-Mathematical Sciences, Mathematical Physics. 2026
Research work in data analysis of stellar spectra.

Instituto Politécnico Nacional ESFM-IPN CDMX, MX
Bachelor's degree in Physical-Mathematical Sciences, Physics. 2024
Relevant publications in the area of Thermodynamics and Radiation.

Instituto Politécnico Nacional CECYT 7-IPN CDMX, MX
High School, Industrial Maintenance Technician. 2018
Awards in programming, english, mathematics, chemistry, and technological innovation.

Experience

ESFM- IPN CDMX, MX
Instructor December 2024 – present

- Teaching assistant in the area of thermodynamics at the undergraduate level.
- Teaching assistant in the area of programming at the undergraduate level.

Freelance Remote
Instructor January 2018 – present

- Programming instructor specialized in C and Python.
- English instructor for Cambridge certifications.
- Instructor for preparation for university entrance exams (IPN-UNAM).
- General English instructor.

Volkswagen CDMX, MX
Programmer January 2018 – December 2018

- PLC programmer for an assembly machine subsidiary of the main plant.
- Programming of Omron and Allen Bradley PLCs.
- Code documentation.
- Assembly and calibration of PLCs.

Leadership & Activities

Directorate of Foresight and Technological Intelligence, TechnóPoli CDMX, MX
Researcher

- I was part of the team for several years developing patents and assisting in the creation of prototypes and product development, both in the physical and programming aspects.

Skills & Interests

Programming: Python (NumPy, Pandas, Matplotlib and Seaborn, Scikit-learn, SciPy, and Plotly), R, Java, C, C++, SQL, Mongo.
Languages: English C1
Laboratories: Advanced physics, ISO 4 level laboratory, semiconductor fabrication, photomultipliers, spectrometers, and magnetic traps.
Interests: Astronomy, literature, cinema, and gym.
